20. If the proposal of any of the bidder does not fulfil the aforementioned criteria, they may be considered non-responsive.
21. Late received bids will be returned unopened. No alteration/amendment shall be allowed after submission.

## Terms of Reference

### 1. Background

100MWp Quaid-e-Azam Solar Power Plant is located near Bahawalpur Pakistan. The location of power plant is desert area with extreme weather conditions with ambient temperature rise up to **50 Degrees** Celsius.

There are **one hundred (100)** units of Inverter stations installed in the power plant. The inverter is Power Electronics device which operates on high temperatures. The inverter container with dimensions (in mm) is shown below.

The performance of inverter is affected by high internal temperatures above 50°C. The outside enclosure temperature of Inverter during the hottest days of summer rise up to **68 Degrees Celsius** due to direct exposure of sunlight. In order to improve the performance of inverter during extreme temperature conditions and to protect the inverter from overheating, Technical Consultants have advised to install shades over the inverters.

## 2. Scope of Work.

Following is the detailed Scope of Work:

- a. Mechanical Designing of Inverter Shade structure keeping in view the wind speed of 40 m/s.
- b. Designing of shade structure foundation keeping in view the combined load of shade and wind speed of 40 m/s.
- c. The Bidder shall provide the design static calculations of supports and foundations to substantiate its design.
- d. The material of sun shade support structure shall be Hot Dip Galvanized steel. The thickness of galvanization shall conform the international standards with design life of 25 years. Bidder to provide calculations and test reports accordingly for approval.
- e. The steel structure of Sunshade shall be connected to surrounding earthing mesh at two pints with proper welding connections.
- f. The structure of Shades shall be installed on the concrete foundation with suitable nuts & bolts made of stainless steel.
- g. The design and installation of shades and structure shall provide the ease of dismantling as per requirement.
- h. The attached drawing is indicative only, the bidder shall prepare a detailed drawing for approval.
- i. The sheet of inverter shade shall be of high-quality fiberglass which shall block the sunlight while not affecting the ventilation of air.
- j. Technically compliant Bidder shall be evaluated/selected on the basis of lowest bid, in compliance with PPRA 2014.
- k. The material of Inverter Shades shall at least comply to the of following:
  - Size of shed (L x W x H) = 14ft x 16ft x 12ft
  - Vertical MS Pipe = Dia 2 inch
  - Roof Square pipe = Dia 1.5 inch (18 SWG)
  - Fiber Glass Sheet Thickness = 4mm
  - Civil Foundation Size (RCC) : 1ft x 1 ft x 1.5ft
  - Painting of MS Structure
